How do I set up a standing order from my bank account?

A standing order is when you pay the same amount of money to a person or a company on the same day every month or week.

You can set up a standing order from your bank account.

Watch out for scams or fraud.
This is when a person lies to you or tricks you to get money from your bank account.

If you want to set up a standing order, here is what you need to do:

- Go to the bank. Each bank is called a branch.

- If you want, you can bring someone that you trust to support you.

- Bring your bank account number and photo identification.

IE00 XXXX 654321 12345678

- Get the name and the bank account number of the person or company you want to pay. This account number is called the IBAN number.

- Decide how much money you want to pay each week or month.

- Decide what date you want to make the payments.

- Go to the counter in the bank. Give the person working at the counter this information.

- You might want to tell the bank what the payment is for so we can put this information with the payment.

- The person working at the counter will set up the standing order for you.

- You can stop the standing order any time you want.
You just have to tell staff in the bank.
